Security & Auditing Services

Protecting Your Data & Ensuring Compliance.

Island Networks offers comprehensive security and auditing services to safeguard your sensitive information and ensure compliance with industry regulations. Our team of certified professionals has the expertise to manage your IT assets effectively, minimize security risks, and navigate the ever-changing landscape of data protection.

Offered Services

Hardware Recycling & Data Destruction

We understand the importance of protecting sensitive information and the need to comply with environmental regulation. Securely dispose of your electronics with our environmentally responsible service. We ensure your data is destroyed beyond recovery and your e-waste is recycled according to regulations.

VMware and Microsoft Licensing Audit Service

Ensure compliance and gain control of your software assets with VMware vSphere, Microsoft SQL server, and Microsoft Windows Server Licenses. Our audit service identifies any licensing gaps and helps you optimize your software investment.

Comprehensive Security Frameworks, GRC, and Compliance Services

Island Networks tailors' security frameworks to your industry and risk profile, while supporting GRC programs for streamlined compliance and comprehensive information security. Our gap assessments, policy development, and ongoing monitoring ensure you meet and maintain regulatory requirements.

Benefits

Enhanced Security

Protect your data with secure disposal of electronic devices and comprehensive security assessments.

Reduced Risk

Minimize security vulnerabilities and ensure compliance with licensing agreements.

Improved Efficiency

Optimize software investments and streamline asset management.

Peace of Mind

Gain confidence knowing your data is protected and your organization is compliant.
